INVESTMENT OBJECTIVES AND STRATEGY

UEFPCA is an exchange traded note (ETN), listed on the JSE and therefore easily accessible for any investor. This ETN tracks the EFPC Global House View portfolio, a well-diversified global equity portfolio. The main purpose of the UEFPCA is to find favourable long-term investment opportunities. The UEFPCA typically invests in between 18 and 26 shares. Although the UEFPCA focuses on owning shares listed on developed markets, many of these companies have emerging market revenue streams.

INVESTOR PROFILE

UEFPCA is suitable for investors seeking actively managed, strategically diversified, global exposure to equities across developed markets. This ETN does not have a prescribed fixed investment period and can act as an investment building block for investors who construct their own portfolios. As the UEFPCA has exposure to international equities, it is exposed to various risks. These include, but are not limited to, currency risk, market volatility, as well as economic and political risk.
