### INVESTMENT OBJECTIVES AND STRATEGY

The EFPC Global Model Portfolio (GMP) is a well-diversified global equity portfolio. The main purpose of the GMP is to find favourable long-term investment opportunities. Typically, the GMP invests in between 18 and 26 shares. Although the GMP focuses on owning shares listed in developed markets, many companies have emerging market revenue streams.

### INVESTOR PROFILE

The EFPC Global Model Portfolio is suitable for investors seeking actively-managed, strategically-diversified, global exposure to equities across developed markets. The EFPC Global Model Portfolio has exposure to international equities and is exposed to various risks, these include, but are not limited to: currency risk, market volatility, as well as economic and political risks.

### PERFORMANCE AND STATISTICS

Disclaimer: The above is purely for illustrative purposes. Actual investment performance will differ based on the initial fees applicable and the actual investment date. Past performance is not an indication of future performance.
